Subject: Request for Comprehensive Security Audit of Adama City's Digital Systems

Dear Sir/Madam,

In line with our unwavering commitment to ensuring the security, reliability, and compliance of our digital service platform, the Adama City Administration hereby formally requests the Information Network Security Agency (INSA) to conduct comprehensive security audit on the following critical digital systems:

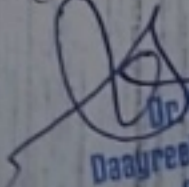

1. Adama City e-Service System ,
2. Digital Housing Management System,
3. Kebele Planning and Achievement Management System and
4. Agricultural Value Chain Management System

Given the pivotal role these systems play in public service delivery, economic development, and the handling of vast amount sensitive citizen and governmental data, we consider it vital to assess their current security posture. Our objective is to ensure robustly meet all required national cybersecurity standards and are resilient against evolving cyber threats.

We kindly request your office to advise us on the proposed audit schedule, specific requirements, and any formal procedure need to fulfill to initiate this crucial exercise.

Thank you for your continued partnership and collaboration in enhancing the security of our public digital infrastructure.

Regards,

 Dr. Shaanqoo Curraa Araddoo
